...**YOU WILL OWN NOTHING...**

Digital ID, digital money

If you have read our last Newsletter, you have seen that we have lost our bank account for our Ministry in Norway. This is a great attack on our mission. Indeed, it is an example of the state, through a bank, persecuting Christian activity outside of the church. This is also a foretaste of how it will be in the near future. In the Bible we read that all the people that not will accept the mark of the beast (the coming Sunday law) will be banned, and then they will not be able to buy or sell. Revelation 13:16-17. Fortunately we still have our bank account in Denmark, and we will use it as long as possible. You can see the banking details on page 7.

We also recognize that the Digital IDs are here! This is perhaps the biggest threat to our financial freedom! Through the digital money they can control you. They can monitor your actions – what you are doing – or what you cannot do. Via the new ID system, they will have all your information in one card, so they can see when you caught the bus, when you were to the

bakery, when you visited any other shop. When all the paper money is taken away, perhaps within the year 2025, then you cannot control your money, because then the bank has all

your money. ***In a crisis***, they can regulate your money. For example, if the government needs your money, it can decide how much money you may withdraw from your bank account each week. Free speech and free financial freedom will soon be finished. Use your money and freedom as wisely as possible now – before it will be very difficult. The World Economic Forum is saying that you will own nothing, and you will be happy! They will make us slaves under their global system! This is about control, total global control!

Could we be moving towards a future in which manufacturers will be leasing rather than selling their products, this becoming the new norm? Industrial giants including Philips, Bosch and Miele, as well as carmakers BMW Group and Ford Motor Company are increasingly looking into providing services to customers instead of selling goods. Are those experiments working? Will we see more companies follow in their footsteps in 2023? Is this a part of the strategy that you'll own nothing and be happy? But I certainly do NOT want to borrow a toothbrush, or underwear, or shoes, or clothes in general. I prefer owning them. I also prefer a bed (and a bedroom) of my own to a leased one. All things have to be changed in order to establish a New World Order.

Again we appeal to you to move out of the cities and establish your own home

in the countryside, where you can grow your own vegetables and fruits and pick berries in the forest! Do not hesitate. Pray to God for help, sell your property in the city and quit your bank loans. Then you are free to take the next steps to the countryside!

UGANDA

Good evening Brother Abel. We thank the Lord because of how He is using you in His vineyard. We have been busy doing the missionary work and our books have been distributed to different places and recently we had a one week evangelistic seminar where 21 souls were baptized and we distributed over 1,200 copies of both *The Protest is Not Yet Over* in the Rutooro language, and *The Struggle behind the Scenes*. We thank the Lord for the blessing.

Last week on Tuesday 13/12/2022 we were attacked by the terrorists from the rebel group called ADF, whereby two people in our neighbourhood were killed, but our soldiers intercepted them and the situation is now normalizing. However, this is most likely to disturb our entry point to the DR Congo. It's my prayer that the war should end very soon so as we can continue with our activities in Eastern Congo.

Preaching and distribution of booklets

I thank you for the educative message you shared with us on YouTube; may the Lord continue using you.

quality is very nice. Springs of Life in Poland did an excellent job. Thank you for your patience!

TANZANIA

The books arrived TODAY! (Printed in Poland.) I have already started a little bit of distribution, by giving copies to the truck drivers that delivered, and all the people who helped to unload the truck. The books look great. They will be eagerly read by many.

People are EAGER for literature here. Often people don't have enough money for their livelihood, so receiving a book is a precious gift. Often I will have people ask for a second or third book so they can also give to friends.

I am so thankful they have finally arrived, and they look amazing. The

New pamphlets are coming for distribution

ZAMBIA

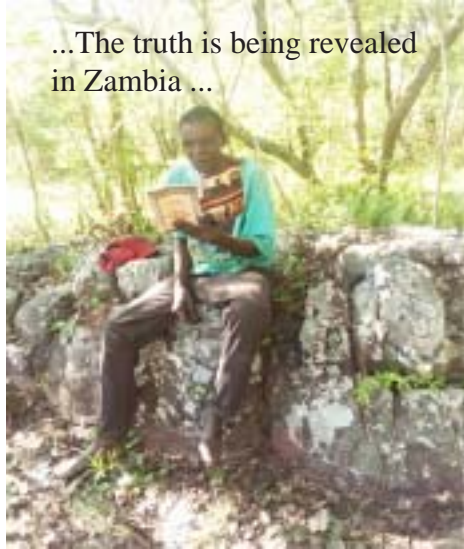

We are grateful for the work done by Christian Information Service and all those that are supporting this ministry. The distribution of these pamphlets has turned many souls from darkness to light. The Bible in Daniel 12:3 says: «... they that turn many to righteousness shall shine as the stars for ever and ever.» The pictures below are of one of the experiences of those that are turning from darkness to light. The protests should not be over with the remnant people of God until the close of probation.

Thank you, may God bless you all and His work.

KENYA

Some of our very devoted Bible workers have now access to prisons of Kenya. A month ago, one team of Bible workers visited a prison nearby their home town. They were given the privilege of witnessing to the prisoners, but with the conditions that they must bring with them soap and tissue paper to every prisoner. We bought all these and together with these supplies, we took in to these dear souls many *copies of the National Sunday Law book, Steps to Christ and Great Controversy and other simple tracts and brochures*

such as The Struggle Behind the Scenes. The response was amazing!!

From AUSTRALIA

I am so happy to hear that you are back on track with your hips and doing the wonderful work of distributing literature! I too definitely feel like you and Benson, time is getting shorter by the day of when we can give out these materials and give the 3 Angels' Messages, so I am totally committed to work with God and you all to make this happen!

I am so sad you are going through the problems with the banks – it is just a small taste of what is before us!

I hope you heal soon so that you can get back to your wonderful work. It is such a blessing to see the *Struggle Behind the Scenes* booklet translated into so many languages and distributed. All the 1,000 we sent to Ethiopia have been distributed as well, and half of the ones in Sri Lanka! God bless and take care.

ITALY

Hello dear brother Abel and sister Bente, how is it going with the mission? Do you have any news or plans for Italy?

I continued to send a few books to the people who ask for them, from Italy. And I talked with some brother in the South, they are asking if and when we will go to distribute some good books. In Sicily we found a family that is proclaiming the gospel, I sent them some books and flyers. We don't know what will be the paper prices for the New Year, but we have some paper stacked, if you want to print more books or booklets. We are working on the translation of one book from your website in the Romanian and Italian languages. But we also have to print more Great Controversy books in the Italian language.

God bless you and the work you're doing!

GERMANY

The stock of our German booklets «*The Struggle behind the Scenes*» has now been used up. We are planning a new production with Benjamin Bondar. Do you have any new requests from

German-speaking countries, so that we can plan the number of copies that should be printed?

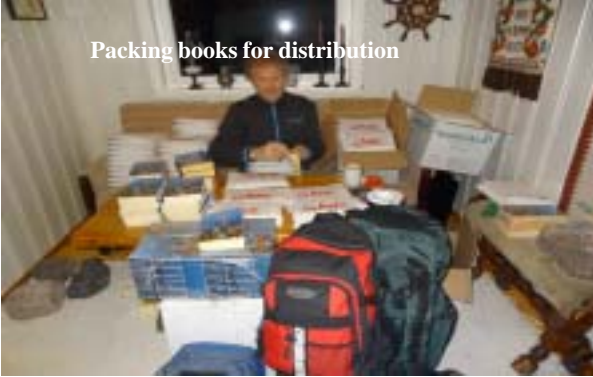

NORWAY

We have been to Oslo distributing the books, *The Desire of Ages* (a title about the life of Jesus, whose Norwegian edition most of our domestic readers have received) and *Steps to Christ* (which most Norwegian readers also have got). We have been handing books out in that city for many years, but we have never before experienced people being so willing to accept this literature. Now we were able to distribute 100 books during the course of an hour and a half, and that we had never managed before. Handing out Christian literature is much more difficult in Norway than in Africa. Perhaps the war in the Ukraine has made people more insecure, and that is why they are looking more for God than previously?

During the past few years we have handed literature out in the major cities just before Christmas, because then people are more willing to accept a gift, and we use this circumstance. These two volumes are about salvation in Jesus Christ, and the best books we can gift to people. So we praise God for this beautiful experience. At the same time we visited Erich. Do you recall him? He has been a drug addict for over 20 years.

A bus had hit his left leg, breaking the lower part in 16 places, and so he has

continued missionary activities may be sent to this bank (Nykredit):

Packing books for distribution

spent a great deal of time in hospital. He, too, was given the two books, and this made him very happy. Let us pray for Erich! His leg is on the mend, and now he is looking for an escape from his addiction. This will be a struggle for sure, but we recorded an interview with him in Norwegian. This is available online. Go to www.endtime.net click on filmer and you will see Erik, even though you not can understand what he is saying. The title of the video is: ***På vei ut av rusproblemet.***

Should you like to further assist our mission, our Norwegian bank has closed our account, meaning Christian Information Service only has its Danish account. Hence, contributions towards

Happy New Year for 2023, and thank you for all your wonderful support in 2022 from the two of us,

Distribution in Oslo city
