## THE WHO, BILL GATES AND THE PANDEMIC.

The WHO, Bill Gates and the Pandemic

Astrid Stuckelberger is an expert in public health, medicine and science. She is a professor and a physician, having 30 years of experience as a researcher. During the years 2009-13, she was employed by the WHO, dealing chiefly with pandemics. She has published 180 articles and 12 books.

In an interview with Hemali (health, food and lifestyle) on November 18<sup>th</sup>, 2021 she said this: I am not sounding the alarm, I am merely explaining scientifically. I am explaining the lies, the corruption, the propaganda... As well as the injuries caused by the vaccines. There was no pandemic. There was corruption and the bad use of science, and there have been record numbers of fatalities after the vaccinations. The WHO (the World Health Organisation) is working like a business, its member countries being

subsidiaries.

– What is the most worrying to you now?

– The vaccines. These are no vaccines, but a biological technological, synthetic experiment, incorporating genetic changes, like GMOs (genetically modified organisms). They ought to have explained about the contents of the vaccines. The dangerous aspect about the vaccines is that they trigger infections. The vaccines contain graphene. This is lethal. The statistics are in, so now we know. The WHO has Been Changed The WHO is no longer the organisation it used to be. The WHO has been changed since my time there. I only realised this recently, but from a political point

of view I have realised what has occurred. There was a change in 2016, Astrid explains.

– The change was a special one: NGOs (Non-Governmental Organizations) – such as GAVI (the Global Alliance for Vaccine Immunization) under the

leadership of Bill Gates – approached the WHO in 2006 with a fund (vast amounts of money). Ever since, the WHO has developed into a sort of international organisation. GAVI gained in influence, winning complete immunity, indeed greater immunity than that enjoyed by the diplomats at the U.N. The GAVI people can do just like they please, the police being powerless.

Bill Gates took over, he handled everything connected to inoculations.

Interviewer: There was a revision of the WHO in 2014. Prior to that time, the WHO was a more transparent organisation, whereby all countries decided about their own vaccination agendas, but after that time, the WHO became more like a firm, with member nations acting the part of subsidiaries. Is this correct?

– It is. While responsible for international relations within the WHO in 2013, I would notice GAVI becoming increasingly prominent. Together with the WHO, GAVI in 2012 presented a global plan of action for inoculations to be in force from 2012 to 2020. That is to say for eight years, during which GAVI held all in its hands. Bill Gates was chief of vaccinations, he took over.

### **LIKE SLAVERY**

– What power does the WHO have over the different nations?

– That is the correct question to ask. All nations used to be free. Now, however, as I am being interviewed across the world, I can see that each land is part of the «firm WHO». The WHO is no longer a democratic organisation. The WHO wishes to have money

and to control people. Those coupled to the WHO, are now in a situation akin to slavery. Taxes paid by us, end up with governments subordinated to the «firm» WHO. Subordinated to multinational organisations, like GAVI.

### **CONTACT BETWEEN GAVI, THE WORLD BANK AND THE WHO**

– GAVI, the World Bank and the WHO signed a contract named IFFM (International Finance for Immunization). Our countries, our peoples, are paying the WHO, the World Bank and GAVI, for them to realise their programmes for immunity, meaning vaccinating entire populations. When you consider the GAVI plan, you will discover that this has been its aim from 2012 until 2020. However, things did not pan out like expected, wherefore they were obliged to *create a pandemic*.

Interviewer: Do you mean to say the pandemic was planned?

– Most certainly. The documents show this. Everybody can study them for themselves, the facts are staring us in the face.

– What has it cost you to blow the whistle?

– I do not consider myself a whistle blower, I merely explain using science, as an expert in public health, medicine and science. The Universities of Genève {Geneva} and Lausanne have scrapped all my courses.

This thing has ended up in court,

they are attacking me.

They want to revoke my lincense to practise medicine, they are accusing me of incompetence, of lying. This happens to all researchers who go public with this message. There are now several of us doctors warning about deaths following innoculations. Speaking up about this is dangerous for professionals.

## MEDIA BEING PAID OFF

- The media are paid off by the multinational «companies». I call them international pirates, she says with a smile.
- And the media are controlling the governments. The media need to become independent, they need to provide the public with free information.

Astrid feels that vaccinations must cease immediately.

- This is due to the contents of the vaccines. Having been a researcher for 30 years, I know that when you make one, two or three case studies through the microscope, finding substantive proof, then no more research is required. What you have seen through the microscope, is proof enough. When as many as ten experts throughout the world see the same thing in their microscopes, that is plenty enough.

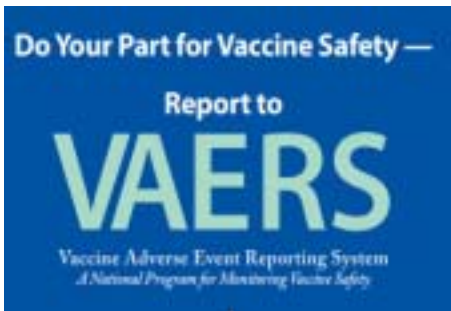

In the vaccines they are able to see graphene, parasites, metals ... That is why we should put a halt to inoculations, forbidding all injections. Those continuing inoculating, should be charged with a crime.

Concerning side effects of inoculations, Astrid says:

- The reported numbers of deaths and side effects only make up 1-10% of the true figures. At the end of October, the European Eudra Vigilance mentioned 29,000 deaths, but taking into consideration the supposed real number, these could be 290,000. This is not easy to tell, because no autopsies are being carried out. There is a lot of lying and bluffing within science, and within its systems. The PCR test is one example, doctors being unable to employ it diagnostically. Physicians are paid to state covid as the cause of death, according to the PCR test, which does not work. Very often this is done without an autopsy. They say a death was due to covid, even when that was not the case.

## **VAERS**

– Data from VAERS (Vaccine Adverse Event Reporting System) indicate an increasingly clearer connection between deaths and inoculations. It is terrible that no clinical research is being done, they only collect information from hospitals. It is a unique thing in the history of pandemics that data are not freely available. In the USA, 17,000 deaths, including those of children and babies, have been reported. Just going on with

this, is unethical. So far in the USA, the number of deaths is triple that of all inoculations put together during the past 35 years. These are official statistics, without any research or evaluation. The science on this is not complete, but inoculations are still being carried forward. It is all horrific, indeed, criminal.

– How many doses do they want people to have, in total?  
– Eight doses, they have bought eight. However, there was no pandemic. There was a pandemic of PCR, propaganda, scaremongering... Ongoing are corruption and conflicts of interest. Science and the media are also corrupt, the whole system is corrupt. Experts are paid off with shares in vaccine companies. They figured this out during the past 20 years. Industry is running the media, the doctors... Lies are issuing forth from universities, where they say, «We trust in science». This is unique. The universities in Switzerland offer Pfizer and Moderna.  
– People have been tricked. They have failed to realise this has been a propaganda stunt. And that politics and definitions have been altered.

## **SCARCITY OF FOOD**

The covid-19 plandemic has caused a scarcity of food and poverty. The war in the Ukraine has made things even worse. Salaries, pensions and public expenses are not keeping pace with quickly increasing prices for energy, food and fuel. This, in

turn, results in poverty and increased costs of living. Hence, we are facing poverty and a decreased standard of living. Already in several nations, many individuals cannot afford food, having to beg or accept food from organisations handing out food to poor people in the streets. However, the situation is becoming increasingly dire with each passing day. Those not preparing for difficult times now, will experience great difficulty in the near future!

### **LEGAL CASE**

Attorney Reiner Fuellmich, together with many other lawyers and experts in medicine, are saying they have sufficient evidence to sentence the WHO, Bill Gates and other international leaders for crimes against humanity.

Legal cases have been launched

all over the world against various government agencies, institutions

and international leaders, such as the WHO, the CDC (the American institute of public health.

Editor•fs comment), the PHE (the British institute of public health. Editor•fs comment), and The Bill and Melinda Gates Foundation for a covid-19 swindle, crimes against humanity and genocide. Lawyers and medical experts claim they possess enough evidence for winning the cases. So says the web journal The Daily Exposé.

### **WAR**

The Devil/Satan – God•fs adversary – is walking about like a roaring lion, seeking to kill and seduce humans across the globe. He is trying to cause as many

wars and disasters in the world as possible, in order for the maximum number of humans to be lost, and for Christian missionary work to stop. But even if there are disasters at sea and on

land, and all eyes are focused on the war in the Ukraine, this is not putting a halt to the Lord's collaborators. Active, outward missionary activities are ongoing all over the world, through TV, books and magazines as well as information on the web. However, possibly the greatest and most demanding task is being carried on by the foot soldiers, going from house to house. Some cycle, others go by moped. They walk up and down the street, handing out books, magazines and tracts. They encounter people in person with the last message of mercy and warning from the last book in the Bible, from Revelation 14:6-12

and 18:4. The following are some examples from the latest reports received in the month of April and early May 2022.

## **ITALY**

Towards the end of April we remitted 96,000 sponsored crowns to a printer's office in Romania, for them to produce 10,000 books (The Great Controversy) in Italian. Now the books have arrived in Italy, but the distributors of thereof have been in a road accident, meaning it will be a further three weeks before they shall begin handing the volumes out.

## **UGANDA**

In early May we held another baptism for 24 people, among them 2 former Catholics and 3 from the Anglican Church. More and more individuals are taking part in distribution now, all receiving training in going from door to door, before starting to hand out booklets. At the end of April, we sent – thanks to the grace of God and the assistance of many donors – some 100,000 crowns to a printing firm

12<sup>th</sup>, 2022 (20,000 copies of THE STRUGGLE BEHIND THE SCENES in the language of the Rutooro tribe, and 10,000 copies of THE PROTEST is NOT Over...), so now the foot soldiers are highly active.

Here are two short reactions: «I have received the booklet, The Protest is Not Over... and I wish to participate in the handing out of this booklet in Kyangwali, because people are very interested in it.»

in Uganda, which now has produced 30,000 booklets for us, to be distributed in that country. Those 30,000 fresh booklets were collected at the print shop on May

The second response is from the headmaster of a school: «I have many students who are not familiar with the truth of God's Word, and I am anxious to

ethnic groups, who speak Ibo or Hausa or Effik. Now the booklet, **THE STRUGGLE BEHIND THE SCENES** has been translated into the Ibo tongue, and we are hoping you shall be able to help us,

get more copies of the booklet, **The Protest is NOT Over...** because we want to prepare them for the return of Jesus.»

ensuring this publication may be printed and distributed here in Nigeria.

... thus we ask this question: Are any of you, the readers of this newsletter, willing to share some

## **NIGERIA**

In Nigeria there are over 170 million people split into 250

of your means towards this project in Nigeria (Africa)? Ibo is the language of millions of individuals, and **THE**

**STRUGGLE BEHIND THE SCENES** incorporates a message of grace and warning to be proclaimed throughout the world – including in Nigeria. Can we together launch a new and active mission there?

We started shipping booklets to Nigeria about twenty years ago, and have got in touch with new persons and groups prepared to give new impetus to the mission there. As of late, we send money directly to the printer's office in each country (with few exceptions), making sure all means go towards the printing of either **THE STRUGGLE BEHIND THE SCENES** or **THE PROTEST IS NOT OVER...** or the book, **THE GREAT**

**CONTROVERSY.** The foot soldiers are bringing this information to the people, and you cannot get more personal than that. People in Africa are more receptive to the message, and results are good. In Scandinavia and in Europe, people are more indifferent, few accept the message of salvation compared to Africa. This message, however, is to reach every tribe, tongue and people. Thus, with the help of all of you sponsors, we are attempting to spread the word in all nations wishing to join the mission.

## **NORWAY**

In Norway, too, the foot soldiers are active. Friends of the mission, living in various places in Norway, are in contact wishing to hand out booklets. We send them booklets, and they hand them out. Towards the end of April we packed booklets and books into our mobile home, heading for the South of Norway. We wanted to hand out **The Struggle Behind the Scenes** in those areas, where Hans

Nilsen Hauge used to carry on missionary work. We, therefore, visited nearly all the places on the outskirts between Kristiansand and Mandal. In and out of the car we jumped during long hours, and when evening came, it was nice to lay down and sleep. We also walked the streets of Kristiansand, distributing The Struggle Behind the Scenes. In Mandal and Tvedestrand we gave away copies of THE GREAT CONTROVERSY and the image showing GOD'S HOLY LAW. We kept the image in a tube of cardboard, and people were curious as to what was inside. One man wanted to know what

GOD'S 10 commandments say, and so Abel remained standing in the street reading aloud the entire

text of all the commandments – commenting on them. Several of those who were handed the image of GOD'S HOLY LAW were excited. They thought it was somewhat artistic and old-fashioned looking, and *that* they liked. Now we are hoping several will frame the picture and hang it in a prominent place in their dwellings!

At the moment, we are at work in our garden. The ground is to be prepared for planting and seed sowing, so that we may have food in the house for winter.

## **MALAWI**

My name is ??? from Malawi, in South-east Africa. I am in charge of a self-supporting ministry called **WAYMARKS MINISTRIES**. We started operations in 2010. Our objective is to preach the gospel of Jesus' soon return, while at the same time proclaiming the truth as it is in Jesus Christ.

For the moment, we are running two major projects. We are translating the King James Bible (KJV) into the tribal tongue of Chichewa, letting the locals, too, read God's Word in their mother tongue. Aside from this, we provide Bible studies for people, even studying with them.

A friend of mine showed me your booklet, **THE STRUGGLE BEHIND THE SCENES**, which contains a strong message for our time. Hence my intense wish to hand this booklet out here in Malawi. I am now writing to you to enquire, whether it is possible for you to print it for us here in Malawi? May the Lord continually lead you in this noble enterprise in

shedding light on this darkened world.

## **SWEDEN**

Distribution of **THE STRUGGLE BEHIND THE SCENES** is continuing in Sweden. There are a few, who do not give in easily. Now, in March/April we went on a new mission trip to Sweden. We were going to visit some of those, to whom we send newsletters. We used our mobile home, being away for some 3 weeks. The nights were cold, and when they were the coldest, there would be ice on the water in the mobile home, as we awoke in the mornings. By visiting our friends in Sweden, though, we regained our warmth. They opened their doors to us, and we enjoyed many frank and fruitful conversations

and cottage meetings with people. Many of those we saw on this occasion, participated at Abel•fs meetings in 2006/2007 in Jönköping, Linköping, Norrköping, Västerås, Uppsala, and in Borås in 2008. Quite clearly, these individuals had grown spiritually, after we met them about 10 years ago, and this made us happy. Seeing each other again was a wonderful experience

for all of us. We have, moreover, also been in touch with the people from our meetings some 15 years ago, and we have realised the importance of following up contacts, to provide them with encouragement and renewed counselling from the Word of God. These kind of meetings always give us pleasant memories. If we will not see them again, we

hope to meet them once more saved and free at home in God's kingdom!

## **BULGARIA**

In Bulgaria, they have distributed *The Protest Is not Over...* for a number of years. They have also translated **THE STRUGGLE BEHIND THE SCENES** and now we have sent them money to print a further 20,000 copies. When this newsletter is being printed, the booklets will already have been made och distribution started. The foot soldiers are on the move in Bulgaria, too. All we can say is, Hallelujah, praise the Lord, and also thank all of you who donate

means, so that the message for our time can be spread to many lands – including inside Bulgaria.

## **KENYA**

We thank God for ensuring you can find the money to spread the message for our time among the peoples of Africa. Now we have purchased paper for the money

you sent us – to print the booklet, **THE STRUGGLE BEHIND THE SCENES**. However, then we discovered that our printing machine can not be used for this type of paper. So now we have stored the paper in a room, where it will be kept in good condition, until we have secured a new printing machine, and it will arrive from England. It will come here on May 30<sup>th</sup>, and as soon as we have installed it, we intend to mass print this and other booklets from CIS. We are, therefore, apologising for not starting the printing yet, but we are looking forward to the first day of printing! We shall keep you posted about developments, once the machine is in place and printing has started. May the Lord bless you for your activities! We thank God for using you to give of your means to the mission in many countries! This has proved a blessing to many, and we are hoping that many souls will be saved for the kingdom of God!

To God be the thanks and the glory for every success!

Contributions to more missionary work can be sent to our bank in Norway:

DNB,  
p.b. 1600 Sentrum,  
0021 Oslo,  
Norway.
